Subject Bank of New Zealand.

Date 28th August 1923.

New York

The above Bank are changing their issue of notes, and have decided that all values shall conform to certain specifications which the banks in that part of the world have drawn up. We have submitted designs for all denominations and these have been approved, subject to slight modifications, and we are now proceeding with the engraving of the dies for the £1 note. This issue will carry as a vignette the head of a Maori chief, which will be common to all values, and which will be of the same size for all values, as all denominations are of the same dimensions. We are very anxious that this vignette should be as well engraved as possible, and I have spoken to Mr. Hendriks about the matter, and he has suggested that we send this vignette to you, and ask you to put one of your good engravers to work on it. I am therefore enclosing herewith the original photograph, showing the details of the face etc., also two photographic reproductions of this head. That lettered (A) is from our design, and is of the size WANTED and SHOWS THE effect desired for the background. That lettered (B) is of the same size as (A), but does not show the over-lay, which appears on the design.

If convenient, will you kindly have this work put in hand for us. Naturally these notes are required as soon as possible, so I would ask that the die be sent to us with as little delay as possible.

Sept. 13, 1923.

I am in receipt of Mr. Gibbs letter of 28th August and have started the engraving for the Bank of New Zealand. We have given this to one of our best engravers - the man who engraved the enclosed portrait of Mr. Claudet, and as you know the subject well, you will be able to see at once that it is well done.

Enclosure.

October 16th, 1923.

16 1923
In accordance with your request of August 28th we have engraved the special vignette for use on the above Bank's notes.

We are enclosing a proof, together with the original photograph. The die is being forwarded to you under separate cover, and we would call your attention to the fact that it is soft.
